```
import pandas as pd
import matplotlib.pyplot as plt
import seaborn as sns
```

```
business_data = pd.DataFrame({
    'Area':[
        'Customer Preferences',
        'Risk Assessment',
        'Social Media Marketing'
    ],
    'Impact Score':[85,90,88]
})

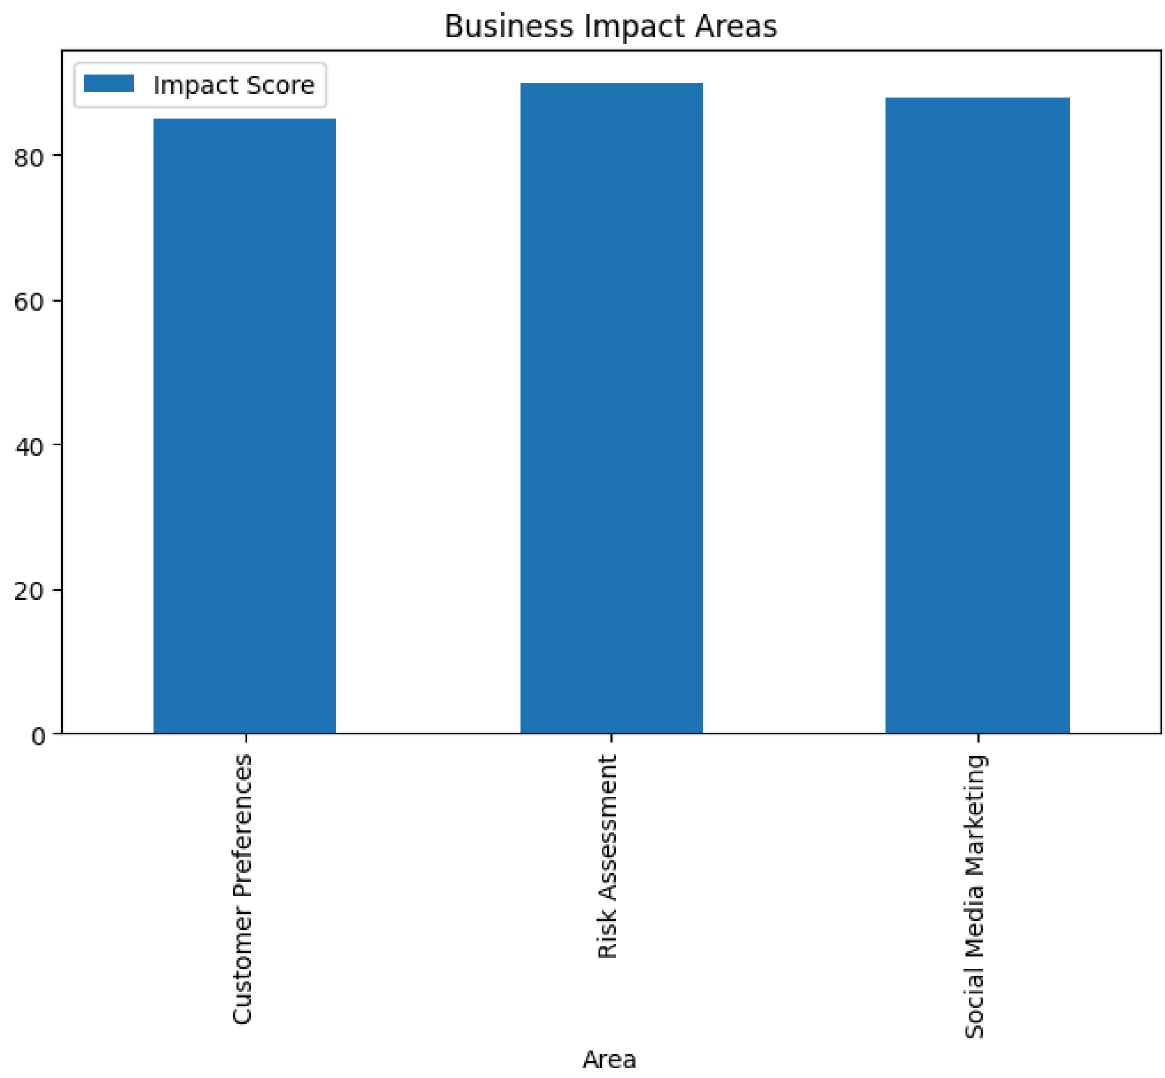
business_data
```

	Area	Impact Score
0	Customer Preferences	85
1	Risk Assessment	90
2	Social Media Marketing	88

Next steps: Generate code with `business_data` New interactive sheet

```
business_data.plot(
    x='Area',
    y='Impact Score',
    kind='bar',
    figsize=(8,5)
)

plt.title("Business Impact Areas")
plt.show()
```



```
actions = pd.DataFrame({
    'Action':[
        'Improve Customer Targeting',
        'Automate Loan Screening',
        'Optimize Posting Schedule',
        'Use Popular Hashtags',
        'Promote High Demand Services'
    ],
    'Priority':[5,5,4,4,5]
})

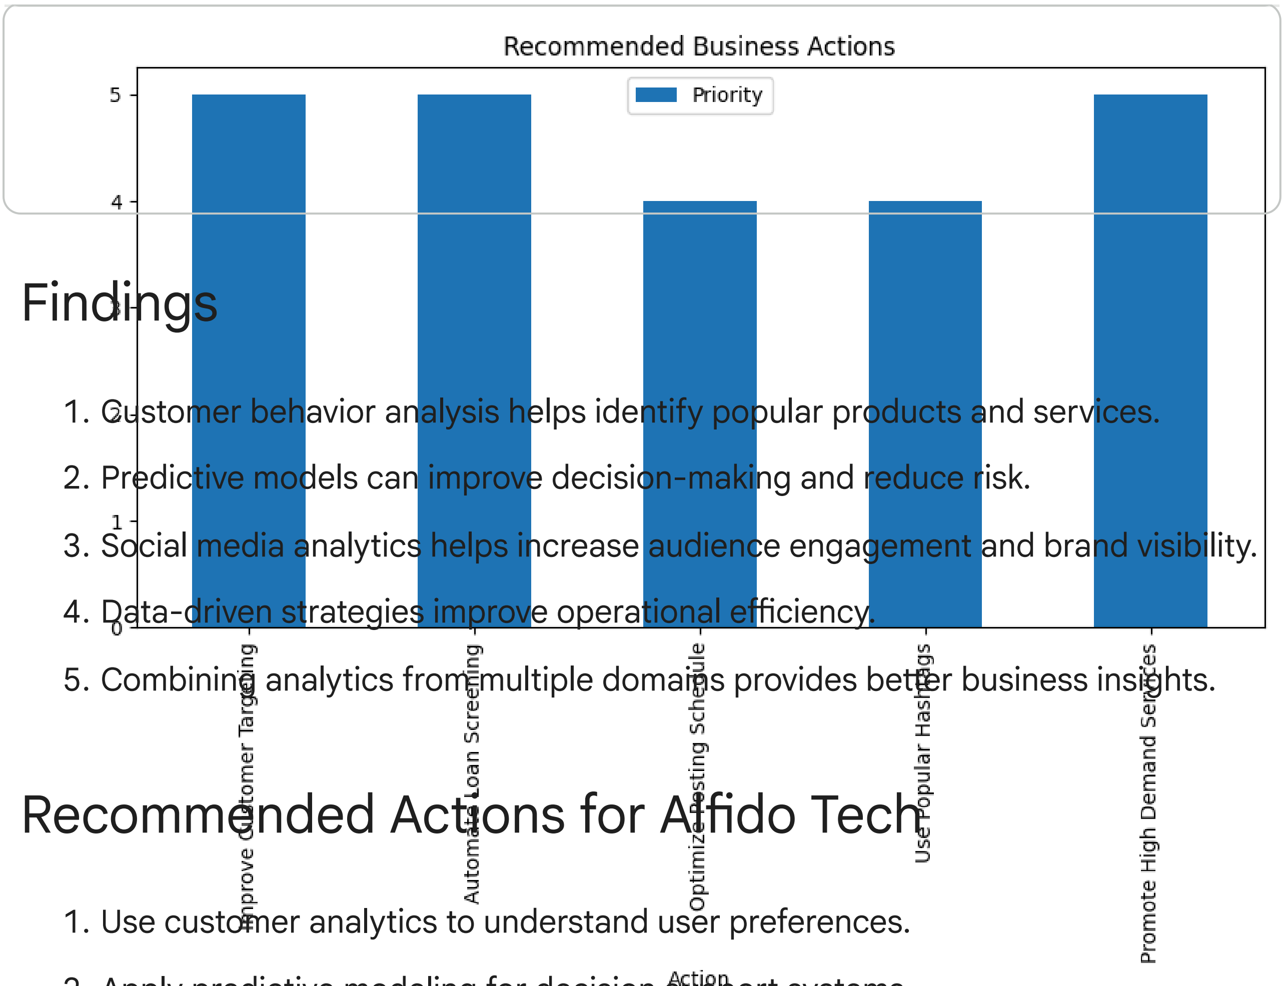
actions
```

	Action	Priority
0	Improve Customer Targeting	5
1	Automate Loan Screening	5
2	Optimize Posting Schedule	4
3	Use Popular Hashtags	4
4	Promote High Demand Services	5

Next steps: Generate code with actions New interactive sheet

```
actions.plot(
    x='Action',
    y='Priority',
    kind='bar',
    figsize=(10,5)
)

plt.title("Recommended Business Actions")
plt.show()
```



Findings

1. Customer behavior analysis helps identify popular products and services.
2. Predictive models can improve decision-making and reduce risk.
3. Social media analytics helps increase audience engagement and brand visibility.
4. Data-driven strategies improve operational efficiency.
5. Combining analytics from multiple domains provides better business insights.

Recommended Actions for Alfido Tech

1. Use customer analytics to understand user preferences.
2. Apply predictive modeling for decision support systems.
3. Focus marketing efforts on peak engagement periods.
4. Use trending hashtags and content strategies to improve reach.
5. Build dashboards to continuously monitor business performance.

Expected Business Impact

- Improved customer engagement.
- Better marketing performance.
- Faster decision-making.
- Reduced operational risk.
- Increased business growth opportunities.

Conclusion

This capstone project combines insights from customer analytics, predictive modeling, and social media analysis to propose a data-driven growth strategy for Alfido Tech.
